

Clear Communication with ATC

Clear ATC communication is an important part of General Aviation today. Proper use of phrases help communicate pilot and ATC intentions clearly and accurately. We will also review communication with ground control, communication while in the pattern and enroute along with communication procedures at towered and non towered airports. We will also discuss VFR Lost communication procedures and light gun signals at towered airports.

Directions: From Orlando area take Hwy 441 north thru Apopka toward Zellwood. 3 miles past Plymouth turn left into airport located along 441 From Mt. Dora area take Hwy 441 south thru Zellwood drive past airport on right to first right turn into airport entrance

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
